No. C 07-03136 JL

**DECLARATION OF DR. RENEE L. BINDER  
 IN SUPPORT OF DEFENDANTS VAXGEN,  
 INC. AND LISA BROOKS' UNOPPOSED  
 MOTION TO COMPEL INDEPENDENT  
 MENTAL EXAMINATION OF PLAINTIFF  
 ARIA RAZBAN PURSUANT TO FEDERAL  
 RULE OF CIVIL PROCEDURE 35**

Complaint Filed: January 19, 2007  
 First Am. Compl. Filed: May 16, 2007  
 First Am. Compl. Served: June 1, 2007  
 Trial Date: Not Yet Set

19  
 20 I, Renee L. Binder, hereby declare:

21 1. I am a board-certified psychiatrist and a Professor in the Department of Psychiatry  
 22 of the School of Medicine at the University of California, San Francisco ("UCSF"). I have  
 23 personal knowledge of the facts contained in this declaration and could and would testify  
 24 competently to the same if called as a witness.

25 2. I have an M.D. from the UCSF School of Medicine and a B.A. *cum laude* from  
 26 Barnard College. I completed my internship and residency in the Department of Psychiatry at Mt.  
 27 Zion Hospital and Medical Center in San Francisco, California. I have been employed for at least  
 28 thirty years as a faculty member in the Department of Psychiatry at the UCSF School of

1.

1 Medicine. In my capacity as a professor at UCSF, I serve as the Director of the Psychiatry and  
2 the Law Program and the Associate Dean in the Office of Academic Affairs at the UCSF School  
3 of Medicine. I am a member of the American Psychiatric Association, the Northern California  
4 Psychiatric Society, and the American Academy of Psychiatry and the Law. I recently received  
5 the American Academy of Psychiatry and the Law's "Seymour J. Pollack Distinguished  
6 Achievement Award" in recognition of distinguished contributions to the field of forensic  
7 psychiatry. A true and correct current curriculum vitae further detailing my qualifications is  
8 attached hereto as **Exhibit A**.

9 3. I have been engaged to conduct an independent mental examination ("IME") of  
10 Plaintiff Aria Razban in connection with the above-referenced lawsuit against VaxGen, Inc.  
11 ("VaxGen") and Lisa Brooks, a former VaxGen employee (collectively, the "Defendants").

12 4. My examination of Ms. Razban will take place at my offices in San Francisco.  
13 The examination will be a maximum of six (6) hours (exclusive of breaks), and will consist of a  
14 psychiatric interview, which will include a personal, work, educational, developmental, family,  
15 relationship, medical, and psychiatric history (which will cover, among other things, preexisting  
16 and current conditions, past stresses, strengths and vulnerabilities), a mental status examination  
17 and an examination of Ms. Razban on the subject of her emotional condition. In order to  
18 accurately assess issues of damages and causation, it is accepted practice within the field of  
19 forensic psychiatry to conduct an in-depth personal interview of a plaintiff that may last several  
20 hours. It is standard practice for the forensic psychiatric examiner to gather detailed data from  
21 the examinee about all aspects of the person's life and experience. Further, my examination will  
22 assess Ms. Razban's psychiatric condition as it relates to the allegations in this action. She has  
23 alleged that she suffers from certain psychiatric conditions as a result of the conduct alleged in the  
24 Complaint (such as post traumatic stress disorder and depression), and my examination will  
25 assesses whether she has these conditions, identify the causes of these conditions, and assess the  
26 impact of these alleged conditions on her mental health and functioning.

27 5. I have requested that the IME of Ms. Razban include a psychological evaluation in  
28 addition to my examination. I made this request for several reasons. First, the psychological

1 testing will assess her cognitive functioning and identify any impairments. Second, in my  
2 opinion, psychological testing is a useful tool for psychiatric evaluation because it sheds light on  
3 the patient's personality structure, which is informative in learning how the patient responds to  
4 trauma. In Ms. Razban's case, information about her personality structure may provide  
5 background on how the conduct Ms. Razban has alleged against the Defendants has impacted her  
6 in the way she claims on a psychiatric level. Third, in my experience, it is common practice for  
7 psychological testing to be one component in a thorough psychiatric examination and for  
8 psychiatrists to work collaboratively with psychologists, who have expertise in that area, to  
9 complete such testing. In accordance with such common practice, I referred that component of  
10 Ms. Razban's examination to my colleague at UCSF, Dr. Dale McNiel. A true and correct copy  
11 of the most recent curriculum vitae I received from Dr. McNiel detailing his qualifications is  
12 attached hereto as **Exhibit B**. Dr. McNiel will conduct a separate interview of Ms. Razban and  
13 thereafter psychological testing, which will be a maximum of eight (8) hours (exclusive of  
14 breaks), and Dr. McNiel's portion of the IME will take place at his offices in San Francisco.  
15 During both my and Dr. McNiel's portions of the IME, Ms. Razban will be permitted a lunch  
16 break and other breaks as necessary.

17 6. It is important that I receive the results of Dr. McNiel's work before I conduct my  
18 examination of Ms. Razban because Dr. McNiel's data will impact how I conduct my  
19 examination of Ms. Razban.

20 I declare under the penalty of perjury under the laws of the State of California that the  
21 foregoing is true and correct.

22 Executed this 8 day of April, 2008 in San Francisco, California.

**Summary of Service Activities:**

Since 2002, I have served in multiple leadership positions within Langley Porter Psychiatric Hospital and Clinics, including President of the Medical Staff, Chair of the Credentials Committee, and Chair of the Morbidity and Mortality Review Committee. I have had educational leadership roles within the Department of Psychiatry including serving as Associate Director of the UCSF Clinical Psychology Training program for the Langley Porter site, serving as Acting Director for the program during absences of the Program Director, and serving on the Executive Advisory Committee for the Department of Psychiatry in 2004-2005. As Program Developer for Mandatory Continuing Education for Psychologists (MCEP) for the Department of Psychiatry, UCSF, I obtained approval for the Department to offer continuing education for psychologists. I was the Chair of a Performance Improvement Project that implemented

an evidence-based approach to risk assessment for violence and suicide at Langley Porter Psychiatric Hospital and Clinics, which included changes in clinical documentation across levels of care and an organized educational effort that involved 20 faculty and about 250 UCSF trainees.

I have held leadership positions in national organizations, including serving as President (2002) of the Section of Clinical Emergencies and Crises of the Division of Clinical Psychology of the American Psychological Association. I have provided government service by participating as a subject matter expert assisting the California Board of Psychology in refining its licensure examination.

I serve as Vice President of the Board of Directors of Park Sunset Apartments, a nonprofit housing project for low income senior citizens.
